CHAIRMAN'S STATEMENT

Dear Shareholders,

It gives me immense pleasure to share with you the annual report for the year ended 31st March 2016.

During the year under review, the company has posted excellent results as compared to its industry peers despite tough business environment globally in view of soft oil prices.

The line pipe industry continues to face the challenges in the domestic and the global markets, mainly due to slowdown caused by low oil prices in international market. However, despite of the adversities, your company has been able to outperform due to its capability to optimise the resources and deliver to the expectations of its clients worldwide.

On the domestic front, Company has been able to bag water pipeline orders from MP Government which has also enabled revival of operations at its revamped Pithampur Plant. With the thrust of the other states for laying water pipelines, Company expects to continue to be a major player in this segment in coming years.

Your company's conservative approach and prudent debt management has been widely appreciated and acknowledged. This has also helped the financial cost to be the lowest in the industry, providing a better earning per share to its stakeholders.

The Scheme of arrangement for demerger of its real estate division under Man Infraprojects Ltd is pending its full implementation for want of approval of the Hon'ble Bombay High Court for modification in the scheme.

On behalf of all the board members and shareholders I wish to put on record my sincere appreciation for the excellent efforts put in by all the team members of the 2000 strong and dedicated workforce of the company. I am also confident they will continue to deliver best out of them and help company to achieve greater heights in the future.

I am also grateful to our bankers, government departments and all the stakeholders for their continued cooperation and support. I thank all my colleagues on the board for their guidance and support. I am also thankful to the fellow shareholders who continued to provide support and repose confidence in the management of the company.

Thank you,

R.C. Mansukhani
Chairman

The Company's plants are situated at prime strategic locations. The Company has also installed 7 MW windmill plant in Gujarat. The Company facilities hold internationally accepted quality standards laid down by the American Petroleum Institute (API) which is a mandatory requirement for the production of high pressure line pipes for hydro carbon applications. More than 10,000 kilometres of line Pipes have been supplied by the Company worldwide. The Line Pipes are used for Oil & Gas transmission, Oil Exploration and Refining, Water and Sewage transportation.

GLOBAL ECONOMY OVERVIEW

In the financial year 2015-16 global economic activity continued to remain subdued. The growth in emerging markets and developing economies, which account for around 70 percent of the global growth, declined for the fifth consecutive year, while the advanced economies continued to recover slowly. There were few key influencing factors to the global economy.

China's economy witnessed a faster than expected slowdown due to rebalancing economic activities moving away from investment and manufacturing towards consumption and service related activities.

Energy and various commodity prices witnessed a decline. Lower oil prices strained the fiscal positions of fuel exporters and weigh on their growth prospects, while supporting household demand and lowering business energy costs for importers. However, strain due to oil shock and its impact on investment climate and weak pick-up in oil-consuming economies due to limited pass-on of lower prices has resulted in global growth stalling.

The United States has been going through a gradual monetary policy tightening scenario where the U.S. Federal Reserve lifted the federal funds rate by 25 bps, while monetary easing continued in the euro area and Japan.

According to IMF, Growth in advanced economies is projected to rise by 0.2 percentage point in 2016 to 2.1 percent, and hold steady in 2017. Growth in emerging market and developing economies is projected to increase from 4 percent in 2015—the lowest since the 2008–09 financial crisis—to 4.3 and 4.7 percent in 2016 and 2017, respectively.

INDIAN ECONOMY OVERVIEW

India remained a relatively bright spot in the global economy with its growth story continuing to bloom. One of the contributors to the strong growth experienced by the Indian economy was the sharp decline in crude oil prices. According to Asian Development Bank estimates, the Indian economy grew at 7.6% in FY2016. Despite a weak monsoon for a second consecutive year, agriculture grew by 1.1% in FY2016. While the industry and private consumption accelerated to a growth of 7.3% and 7.6% respectively, the services growth moderated to 9.2%.

The regulatory regime witnessed easing and the Reserve Bank of India (RBI) cut interest rates four times as inflation eased sharply. Rate cuts had been widely called for by the industry to reduce the cost of borrowing and help stimulate growth. The government's strong focus on reviving growth was evident from the Union budget, where the Finance Minister gave relief to small tax payers, nudged the affluent to shell out more while focusing on the rural economy with much higher fiscal outlays.

As per the World Economic outlook released by the IMF, India will be the fastest growing major economy in 2016-17 growing at 7.5%, ahead of China, at a time when global growth is facing increasing downside risks. India's growth is expected to continue to be driven by private consumption, which has benefited from lower energy prices and higher real incomes. With the revival of sentiment and pickup in industrial activity, a recovery of private investment is expected to further strengthen growth.

GLOBAL OIL & GAS INDUSTRY REVIEW

In 2015-16, oil prices continued to trend lower, getting down to the \$40-50/barrel range since mid-summer and dipping below \$40/barrel in December and falling all the way to \$26. In less than a year, upstream oil and gas companies faced 50 percent drop in revenues. In reaction to the depressed oil price scenario, many in the industry cut capital expenditures and deferred major capital projects, some also cut operating expenditures and headcount, and also pushed suppliers for better pricing.

Consumption of petroleum and other liquid fuels in countries outside of the Organization for Economic Cooperation and Development (OECD) increased by an estimated 0.7 million b/d in 2015. Non-OECD consumption growth is expected to be 1.0 million b/d in 2016 and 1.2 million b/d in 2017, reflecting higher growth in the Middle East and in Eurasia. Slowing economic growth in China poses a downside risk to the forecast for liquid fuels consumption. U.S. crude oil production averaged an estimated 9.4 million barrels per day (b/d) in 2015. It is forecast to average 8.6 million b/d in 2016 and 8.0 million b/d in 2017. (EIA).

DOMESTIC OIL & GAS REVIEW

While there are many estimates for India's long-term gas demand given different assumptions around the availability, affordability and growth in key end-use segments, it is clear that India's gas demand could at least double from the current consumption levels of around 140 mmscmd over the next 10-15 years. The actual demand would depend on various factors and policy initiatives taken by the government such as the development of clean energy sectors, pricing and cost competitiveness of gas, climate change commitments, investments in gas sourcing and supply infrastructure, and finally the development of end-use sectors.

India's gas supply base would need to enlarge and diversify to meet the country's growing energy demand and address the energy security agenda. The following initiatives have the potential to boost overall domestic gas supplies over the medium-to-long-term period:

- Development of conventional and unconventional gas resources:

New Government initiatives such as Open Acreage Licensing Policy, revenue sharing model for new contracts, and unified licensing, gas marketing and pricing freedom under the Marginal Field Policy

- Augmenting LNG import capacity through brownfield expansions and commissioning of greenfield terminals

- Development of transnational gas pipelines such as Turkmenistan-Afghanistan-Pakistan- India (TAPI) pipeline, and imports through sub-sea pipelines from Iran (SAGE pipeline project) Realizing the potential of these initiatives depends upon a robust policy framework and proactive steps taken to address industry concerns in various aspects of the gas sector

GLOBAL PIPES INDUSTRY REVIEW

Globally, local natural gas distribution companies have turned their need to replace aging pipelines into a growth opportunity for the sector. Though the network has grown by roughly 400,000 miles in the past 15 years globally and customers have converted to natural gas from other fuel sources, the replacement of older pipeline has not occurred at the same rate. Some pipes in the US date back to the 1800's which were made of cast iron pipe or bare-steel pipe that has not been coated to help prevent corrosion. Also fatalities in the past couple of years have also led to an increased sense of urgency in replacing aging pipelines.

DOMESTIC PIPE INDUSTRY REVIEW

Domestic demand for the Pipes sector declined given the slow demand from the oil and gas segment and lower investments in the power sector. Domestic demand for steel pipes is expected to grow at a marginal 4-5% driven by demand from the water supply & sanitation (WSS) and irrigation segment. Lower investments in the oil and gas segment and delay in commissioning of pipelines will dampen demand despite the government's focus on improving the existing infrastructure for water supply & sanitation and sewage transportation.

Steel pipe manufacturers have added significant capacities in the past, perceiving strong domestic as well as export demand. However import duties in the export markets and sluggish off take by oil & gas players has affected demand. Over the next few years, the Indian steel pipes industry is not expected to add any additional capacity. With a gradual improvement in demand the capacity utilisation rates for pipe makers is expected to improve as per Crisil Research.

RIVER LINKING Project-Driver for water pipes

According to the National Commission for Integrated Water Resources Development (NCIWRD, 1999), India will require about 450 million tonnes of food grains per annum to feed the population of over 1.5 billion in 2050. To meet this requirement, the country needs to expand its irrigation potential to 160 million hectares for all crops by 2050. Besides, floods are a recurring feature, particularly in the large parts of the Ganga-Brahmaputra-Meghna basin, affecting Assam, Bihar, West Bengal and Uttar Pradesh. On the other extreme, a number of western and peninsular states such as Rajasthan, Gujarat, Andhra Pradesh, Karnataka and Tamil Nadu face recurring droughts.

According to the PNGRB, there are approximately 11500 Kms of pipeline in various stages of construction in India. This represents a huge demand for carbon steel pipes. The Indian market also has an opportunity to transform and grow significantly. This growth will be driven by several critical economic and social drivers emerging from India's national development agenda.

FUTURE OUTLOOK

Natural gas is set to secure a bigger position in the domestic as well as global primary energy pie of the pipe industry. This is underpinned by the following key factors:

- Abundant and geographically distributed gas reserves and growing global trade of gas;
- Lower pollution and emission levels, which help in meeting greenhouse gas (GHG) emissions commitments;
- Technological advancements expanding the applications of gas.

The National River Linking Project (NRLP) proposes to transfer excess water from flood-ravaged states to water-scarce regions. It claims to provide additional irrigation to about 35 million hectares in water-scarce western and peninsular regions, which produce the bulk of food. This will further create employment, boost crop output and farm income, and multiply benefits through backward and forward linkages. NRLP is also expected to generate additional hydropower of about 34 GW. Since HSAW pipes are now replacing open canals due to their inherent advantages, there is a great potential going forward from these river linking projects.

Annexure B to Independent Auditors' Report

Referred to in paragraph (g) of the Report on Other Legal and Regulatory Requirements of the Independent Auditors' Report of even date to the members of Man Industries (India) Limited on the standalone financial statements for the year ended March 31, 2016.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls over financial reporting of Man Industries (India) Limited ("the Company") as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that
 - (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
 - (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE A TO INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 2(h) of the Independent Auditors' Report of even date to the members of Man Industries (India) Limited on the consolidated financial statements for the year ended March 31, 2016

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2016, we have audited the internal financial controls over financial reporting of Man Industries (India) Limited (hereinafter referred to as "the Holding Company") and its subsidiary companies, its associate companies and jointly controlled companies, which are companies incorporated in India, as of that date except Merino Shelters Private Limited, wholly owned subsidiary of the Company, as stated in basis of qualified opinion of the Independent Auditors' Report of even dated to the members of Man Industries (India) Limited on the consolidated financial statements for the year ended March 31, 2016.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding company, its subsidiary companies, its associate companies and jointly controlled companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on "internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company, its subsidiary companies, its associate companies and jointly controlled companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes annexed to and forming part of the Consolidated Financial Statements for the year ended 31st March, 2016

1. Principles of Consolidation

The Consolidated Financial Statements have been prepared in accordance with Accounting standard (AS -21) "Consolidated Financial Statements", on the following basis :

- a) The financial statements of the parent company and its subsidiaries have been combined to the extent possible on line by line basis by adding together like items of assets, liabilities, income and expenses. The results of subsidiaries acquired or disposed off during the year are included in the consolidated profit and loss account from the effective date of acquisition or up to the effective date of disposal, as appropriate. All significant intra group balances and transactions have been eliminated on consolidation. The amounts shown in respect of reserves comprise the amount of the relevant reserves as per the balance sheet of the parent company and its share in the post – acquisition increase in the relevant reserves of the subsidiaries.
- b) In case of foreign subsidiaries, being non – integral foreign operations, revenue items are consolidated at the rates prevailing at date of transaction. All the assets and liabilities are converted at the rates prevailing at the end of the year. Any exchange difference arising on consolidation is recognised in foreign currency translation reserve until the disposal of said foreign operations.
- c) The difference between the cost of investment in the subsidiaries, over the share of equity in the subsidiaries, on acquisition date, is recognised in the financial statement as goodwill or capital reserve as the case may be.
- d) Minority interest in the net income and net assets of the consolidated financial statements are computed and shown separately. Losses applicable to minority in excess of the minority's interest in the subsidiary's equity are allocated against the interests of the group.
- e) The unamortized carrying value of goodwill is tested for impairment as at each balance sheet date.
- f) As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Company's separate financial statements.

2. Significant Accounting Policies:

a) Basis of Preparation of Consolidated Financial Statements :

These consolidated financial statements have been prepared to comply with Accounting Principles Generally accepted in India (Indian GAAP), the Accounting Standards notified under the Companies (Accounting Standards) Rules, 2006 and the relevant provisions of the Companies Act, 1956.
